PREFACE

SAFETY NOTICE

Proper service and repair procedures are vital to safe, reliable operation of Go-Karts and Bumper Boats as well as personal safety of those performing repairs. Refer to your J&J Service Manual for servicing and repairing J&J Go-Karts and Bumper Boats. Always use safe and effective methods. The Service Manual contains many *NOTES*, *CAUTIONS* and *WARNINGS* which should be followed along with standard safety procedures to eliminate the possibility of personal injury or improper service which could be damaging to your equipment or compromise its safety.

It is important to note that repair procedures, techniques, tools and parts for servicing Go-Karts and Bumper Boats as well as the skill and experience of the individual performing work vary widely. It is not possible to anticipate all conceivable ways or conditions under which Go-Karts and Bumper Boats may be serviced or to provide cautions to all possible hazards that may result. Standard precautions should be used when handling toxic or flammable fluids, and safety goggles or other protection should be used during cutting, grinding, chiseling, prying or any other process that can cause material removal or projectiles. J&J recommends use of safety goggles or approved glasses during all servicing.
